INTRODUCING THE FIRST ‘FINANCE TIMES’ NEWSLETTER

Welcome to the first issue of the Diocese of Winona Finance Times! This newsletter is intended for pastors, parish administrators, bookkeepers, office managers, and any parish, school or cemetery employee who is involved in the day to day administration of finance, office and/or facility responsibilities.

The Finance Times will be published three times per year. A paper copy of this initial issue will be distributed during the workshop sessions of the June 2008 Ministry Days. Subsequent issues will be announced and distributed via e-mail and www.dow.org/finance.html.

Each issue will include current and timely information regarding internal control procedures, benefit administration, common accounting questions, risk management and other topics as applicable.

Most of the topics in this inaugural issue are taken directly from questions asked by parishes, schools and cemeteries during the past few months. Do you have a question that you would like resolved? Is there additional information that you would like to see in this newsletter? Help us make this newsletter a useful resource for you! Please direct your feedback/input regarding this newsletter to any staff member within Office of Finance at the Pastoral Center.

In addition, please feel free to share this newsletter with members of your staff and/or your colleagues in other parishes that will find the enclosed information useful.

FROM THE OFFICE OF FINANCE...

Challenge 2008!

Parish financial reports for fiscal year ending June 30, 2008, are due to the Finance Office by August 31, 2008. The majority of parishes are using Logos to generate their annual finance report, so meeting the deadline should be a snap.

Our goal and challenge this year is to have 100% (115) reports to the pastoral center by August 31. Help us meet our challenge.

Complete instructions, forms, updates, etc. are available via the Diocese of Winona website: http://www.dow.org/fin_report.html

Manuals, Manuals...

Each parish should have a copy of the parish financial procedures manual. A copy of the manual is also located on the diocesan website at www.dow.org. Follow the finance link: http://www.dow.org/finance.html

The manual is a great resource for parish administrators, accountants, and members of parish finance councils. In the manual you will find every topic that we thought would be relevant for parish financial administration. The manual is a particularly valuable resource and a training/orientation tool for new administrators and parish finance staff.

INTERNAL CONTROLS - PETTY CASH

Petty cash funds are useful and convenient when a relatively small amount is required to make a purchase within a short timeframe. The convenience of a petty cash fund also requires strong internal controls to ensure that funds are properly allocated and accounted for. To account for petty cash funds, it is suggested that the following process be implemented.

A check should be drawn payable to petty cash or the person responsible for petty cash. The check should be for a fixed amount of money, e.g., $100. This check should be cashed with the proceeds immediately deposited into a locked cash box.

One individual should be in charge of the petty cash distributions. Receipts, noting the date, payee, amount, purpose, and the account to be charged should be maintained for all expenditures.

When almost all of the cash in the box is depleted, another check can be drawn equal to the total amount expended. The expenditure receipts are then cancelled, with the amounts posted to the cash disbursements journal under.

Collection proceeds or other cash sources (e.g., votive candle money) should not be used to replenish petty cash.

BENEFITS

Staffing Changes and Employee Benefits

It is that time of year when many schools and parishes have staffing changes. Along with that comes the need to enroll new hires into the diocesan benefits and to inform employees that are leaving what will happen to their benefits.

The first thing that should always be done when there are staffing changes is to notify the diocesan Employee Benefits Coordinator. This is accomplished by completing the “Notice of New Employee Hire” or “Notice of Employee Termination of Employment” form and either faxing it or mailing it to the Pastoral Center. Copies of these forms can be found in the front of your Employee Benefits Guide.

Next you should consult either the “New Hire Employee Benefits Checklist” or “Terminating Employee Benefits Checklist” located in the back of your Employee Benefits Guide. These checklists are a guide to help you make sure new hires, and employees leaving, receive all the benefit booklets and forms that are necessary to complete for enrollment or continuation of their benefits. All paperwork for newly hired employees and terminating employees need to be completed with 30 days of the hire date/termination date.

Flexible Benefit Plan Enrollment

The deadline for enrollment in the 2008/2009 Flexible Benefit Plan is fast approaching. Please forward these forms to Krissa at the Pastoral Center in Winona as soon as possible, but no later than Thursday, June 19, 2008.

Health/Dental Insurance Renewal

The rates for the September 1, 2008 health/dental insurance renewal will be available in mid or late July. Notices of the rates will be sent to all locations participating in this insurance program. A reminder that renewal time is the only time during the year that members can switch between the different deductible plans.

DEAR LOGOS...

Q: I just processed accounts payable and forgot to print and record my normal reports. I need to quickly verify some information within this batch, how can I do this quickly and easily?

To access this information, click on the “Batch List” icon on the General Ledger screen. This will display a search screen. (The default will display all batches processed in the current fiscal year.) **INFORMATION TECHNOLOGY**

**Need a low / no cost solution for an office software suite?**

One option is OpenOffice. Available at [www.openoffice.org](http://www.openoffice.org), the software is an open-source office software suite for word processing, spreadsheets, presentations, graphics, databases and more. Open-source code by definition is programming code that is completely open, available and non-proprietary: it can be downloaded and used completely free of charge.

OpenOffice.org 2 can be downloaded and used entirely free of any license fees. OpenOffice.org 2 is released under the LGPL license. This means you may use it for any purpose - domestic, commercial, educational, public administration. You may install it on as many computers as you like. You may make copies and give them away to family, friends, students, employees - anyone you like.

The software works side by side with existing office software. You can open, edit and save documents, spreadsheets in different formats (e.g. Microsoft Office, Lotus, WordPerfect, etc) as well as the OpenOffice format. It will allow users to create Adobe PDF versions of any document.

The availability of free office software may help reduce your administrative expenses, eliminating the need to purchase licenses for new computers, or upgrades to existing software. OpenOffice software may also be a great option for computer lab environments.
