## **New insulin benefit**

Dear Valued Member,

Blue Cross and Blue Shield of Minnesota and Blue Plus (Blue Cross) and Prime Therapeutics are working to manage health care costs. Keeping insulin affordable can help.

**Starting January 1, 2020**, some Blue Cross plans will have a new benefit of zero cost-share for covered insulins to help ensure our members using insulin have continued access to affordable insulin options.

This means that for covered insulins you won't have a copay or need to meet your plan's deductible (the amount you pay before your plan starts to pay) to fill a prescription.

### **What insulins are included?**

While not all kinds of insulin are included in this new benefit, many are. The specific drugs included depend on your health plan.

See the list of insulins covered at no cost-share for your health plan:

1. Visit **bluecrossmnonline.com** and log in to your account. (No account yet? It's easy to create one on the site.)
2. After you log in, under **tools** on your home page (you may need to scroll down the page), select **prescription drugs**.  
You'll be taken to the myprime.com prescription drugs site.
3. Select **find medicines**. Then, under **helpful documents** on the lower part of the page, look for the **\$0 Insulin Member Cost-Share Drug List**.

### **What if my drug isn't on the list?**

Talk to your doctor about your insulin. If yours is not on the "\$0" list, your doctor can determine whether any of the drugs included may be right for you if you'd like to switch.

Note: This benefit only applies to insulins. Please see your benefit documents for information about coverage for diabetes supplies such as syringes, diabetic strips/Lancets, blood glucose monitors and insulin pumps.

### **Your pharmacy matters**

There is no change to the network of pharmacies that are covered for your prescriptions. For any prescriptions to be eligible for coverage, be sure to visit a pharmacy in your plan's network.
